MOHAMED ALI KHATEB

IT Support Engineer | System Administrator | Computer Engineer

PROFESSIONAL SUMMARY

Computer Engineer with solid hands-on experience in IT support, network administration, AI model training, and customer-facing technical operations. Currently serving as IT Support Technician at a major UAE contracting company, delivering reliable infrastructure support to a large workforce. Proven ability to troubleshoot complex systems, manage Active Directory environments, maintain LAN/Wi-Fi networks, and drive technology solutions that ensure business continuity. Trilingual professional (Arabic, Turkish, English) with a strong multicultural track record across Turkey and the UAE.

WORK EXPERIENCE

IT Support Technician

2026 – Present

National Contracting Company (NCTC) — Sharjah, UAE

- ▶ Provide first- and second-line technical support for hardware, software, and network issues ensuring minimal downtime and uninterrupted business operations.
- ▶ Install, configure, and maintain desktops, laptops, printers, and peripherals across multiple office locations.
- ▶ Administer user accounts, permissions, and group policies via Active Directory and Microsoft 365.
- ▶ Diagnose and resolve LAN/Wi-Fi connectivity issues including switch configuration, VLAN setup, IP management, and performance troubleshooting.
- ▶ Manage IT asset inventory, coordinate equipment procurement, track warranties, and oversee hardware lifecycle management.
- ▶ Apply security patches, manage endpoint antivirus tools, and conduct routine system audits to uphold data integrity standards.

AI Trainer / Content Moderator

2022 – 2025

Conectys – TikTok Content Operations — Istanbul, Turkey

- ▶ Trained and fine-tuned AI classification models for TikTok's global content moderation pipeline, improving detection accuracy of policy-violating material.
- ▶ Analyzed large-scale platform datasets to identify model weaknesses and delivered structured feedback to ML engineering teams.
- ▶ Collaborated with cross-functional tech, data science, and policy teams to align algorithm behavior with community guidelines and regional regulations.
- ▶ Produced QA performance evaluation reports and recommended algorithmic improvements based on content trend analysis.
- ▶ Mentored new team members on moderation guidelines, QA workflows, and AI feedback methodologies.

Patient Experience Officer

2020 – 2022

Elay Clinic — Istanbul, Turkey

- ▶ Supported Arabic-speaking patients throughout their full medical journey including inquiry handling, appointment scheduling, registration, and discharge follow-up.
- ▶ Provided Arabic-Turkish interpretation during clinical consultations ensuring accurate, culturally sensitive communication between staff and patients.
- ▶ Managed patient data entry, medical record updates, insurance verification, billing coordination, and payment processing.

PROJECTS

Personal Portfolio Website

<https://eng-khateb.github.io/My-website> · 2024 – Present

- ▶ Designed and developed a fully responsive multilingual (EN/AR/TR) personal portfolio website from scratch using HTML5, CSS3, and JavaScript.
- ▶ Implemented a modern dark-mode-friendly UI. Deployed via GitHub Pages with Git version control.
